Our Mission:

To support actions of the Government for maximum impact:

1. To eradicate poverty.
2. To promote sustainable and equitable development.

Office of
First Lady

Office of
First Lady

Our Commitment:

To support, promote and execute activities that achieve:

- The integral development of Dominican families,
- Spreading knowledge, and
- Reducing the digital divide.

Office of
First Lady

Our Commitment

“We have committed to benefit our society with Information and Knowledge so that all the citizens of our nation have equal access to the benefits displayed by the TIC for profit and development.”

Dra. Margarita Cedeño de Fernández

Office of
First Lady

Our Contribution:

DESCRIPTION OF THE PROGRAM

Technology Community Centers(CTC)

The Technology Community Centers:

- Are access centers which, become centers to spread knowledge and become the nucleus of development and tools for including and integrating the rural communities in which they are located.
- They offer courses of formation in TIC, access to information and facilities for the planning of local projects.

Program Technology Community Centers(CTC)

The CTC ARE LOCATED IN:

- Rural Areas with extreme poverty in the Dominican Republic.
- 36 Municipalities in the country
- *Our Goal: A TCC in each municipality of the country.*

Program
CTC

Programs within the CTC:

O Prepare to Compete

It prepares children and adults that don't know how to read and write to acquire the basic education needed to improve their conditions of life.

It offers an opportunity to learn and study using computers.

In 8 months we have educated 500 young people and adults in reading and writing who are now prepared to start their primary education..

Program
CTC

Programs within the CTC:

○ Community radio broadcasting station: *“The Voice Of The Progress”*

Each CTC counts on a radio station which:

- ✓ Promotes the participation of citizens.
- ✓ We broadcast educational and informative programs that promote patriotic values and interests of their community and the region.
- ✓ Additionally we try to defend human rights, promote sustainable human development, fairness, preserving the environment, the importance young people and their ideas, protecting children and the elderly, education and health, respect for cultural diversity as well as national and regional integration.

Program
CTC

Programs within the CTC:

o Child Media

Implemented in alliance with Plan International, our broadcaster for the South region:

We enabled children, and adolescents to produce their own radio programs discussing subjects they consider problematic in their community.
