## Medical & Dental Ministries

Volunteering for *Medical Ministries* in Costa Rica, serving with us will change your life and the ones you touch. There are many ways to support Medical Ministries in our medical mission to bring help to the poor. It takes all kinds of help; and people, each with a different set of skills. There is a need for both medical and non-medical volunteers.

*Medical Ministries* give doctors, nurses, and other healthcare workers the opportunity "to help people" in the way they dreamed of when they were kids. *Medical Ministries* desires to bring hope to the four billion people in the world who live without basic healthcare services.

Volunteers for medical missions are true heroes to those in need. Some medical missions require previous international health experience or fluency in the local language. Ingenuity is always required because medical supplies, equipment, and medicine will be in short supply. The greatest requirement for a medical mission, however, is a sincere desire to put your skills to use in a region in desperate need of your services.

## Sea Rose International

Sea Rose is an international logistics company specializing in serving the needs of those who serve others, the least among us, overseas. We recognize that the charities we serve do not necessarily have the depth of experience that we possess. We assume all tasks required to move the aid supplies (clothing, medicines, medical supplies, food and educational supplies, etc). We take on your mantle allowing your team to focus on serving.

# The Jungle Medic Missions

We just finished up with three back to back and they were all great. This last teams we made up of some fantastic Doctors and PA's. Most of the PA's had specialties and the Doctors were both Emergency Room Doctors so I think this was the most advanced team we have ever had. Marleni and I learned a great deal from them.
